INSTALLATION STEPS

iPhone Screen Protector

1.

- Open the installation kit.
- Use the wet wipe to thoroughly clean the screen.
- Use the microfiber cloth to remove all lint and dust.
- Then use the dust removal sticker.

CLEANING SET

2.

- Place the application cover with the arrow pointing to the top of the iPhone.
- Ensure that the cover is placed correctly. When removing the dust strip, hold only at the top of the cover (aligned with the front camera), avoiding the middle and bottom. Gently pull the dust strip.
- After removing the strip, swipe the T-shaped slot, then take off the cover.

3.

- Remove the Application cover.
- Squeeze out any trapped air.
- Remove the top protection sticker from the screen protector.

Your iPhone screen is protected!
